Certification

Air Purifier

Elson Hava Froumann N90

Test report

The ECARF Seal of Quality is a label for allergy-friendly air purifiers that are able to achieve a measurable improvement in air quality for the indicated room volume with normal use. To qualify, the certified final product must pass a laboratory test for separation efficiency, temperature difference, odour neutrality and, if applicable, ozone generation.

An application for certification was submitted for one air purifier with the following result:

Test product	Elson Hava Froumann N90
Applicant	Elson Hava Teknolojileri A.Ş., Organize Sanayi Bölgesi 21. Cadde No:8, 26110 Eskişehir-Türkiye
